A curious creature.
A coastal adventure.
A big scientific discovery!

When Emersyn Blake spots an unusual creature hiding among the seaweed, she can't wait to investigate.

Grab your science tools and notebook, and explore the wonders of the estuary with Emersyn Blake!

INSIDE THE BOOK

- **Real science, told as a story.** A young scientist observes, questions, and investigates a mystery in the estuary.
- **Vocabulary that sticks.** A 15-term glossary, including estuary, brackish, mangrove, and benthic.
- **Made for sharing.** Read aloud at home, at the library, or in a K–5 classroom.

ABOUT THE AUTHOR

Kim Collazo is a children's author who creates engaging, curiosity-driven picture books that combine science, discovery, and a sprinkle of humor. With a lifelong background in elementary STEM education, her writing focuses on making complex science ideas accessible, accurate, and exciting for young readers. Her fact-based stories invite children to explore the natural world with wonder and amazement. Kim is the author of *The Emersyn Blake Series* picture books. When not at her computer, visiting schools, or in the library, Kim enjoys taking nature walks and spending time at the beach with her family.
